☞ The Regular Members are divided into two classes. Those above the line in each year are the graduates of this University, and are believed to be entirely correct. Those below it, left the Institution without having completed their scholastic course. And from their number and other causes, it is impossible to make the list perfectly correct. The place of an individual's residence when he joined, is uniformly adopted, when known. Those marked with an asterisk (*) have departed this life.

The Catalogue has once been published for 1851; but from the many and glaring mistakes, it was resolved to publish it again. Much time and labor has been bestowed upon the work, and yet it is not faultless. Any person discovering an error, will confer a favor by making it known to some member of the Society.
